

THE COUNCIL FOR TOBACCO RESEARCH-U.S.A., INC.

July 27, 1973

Grant Application No. 925
CANCER

To: The committee comprising Drs. Andervont, Gardner, and Jacobson

Subject: L. G. S. Rao, Ph.D., Regional Steroid Laboratory, Glasgow, Scotland
New application No. 925
"Correlation of the Levels of Plasma Steroids with those in Urine of Lung Cancer Patients and Controls"

History

Dr. Rao has been applying to CTR, unsuccessfully, since 1970 on this general topic.

When he was last denied by SAB early in 1972, Dr. Hockett forwarded to him (anonymously) comments by SAB and criticisms that had come from an outside reviewer.

Application No. 925 requests 3,950 Pounds Sterling plus two additional years.

Documents Submitted (attached)

1. Letter dated 23rd July 1973 with application dated 18th July 1973.
2. C.V. of L. G. S. Rao.
3. Reprint "Prediction of 1-Year Survival . . ." by Rao, British J. Surg., 59 977-979, 1972.
